

7-Day Blood Pressure Record

Two readings each morning and each evening, for seven days. That is the set your doctor can use.

BEFORE YOU MEASURE

- No coffee, exercise or smoking for 30 minutes first.
- Empty your bladder.
- Sit still for 5 minutes, back supported, feet flat, legs uncrossed.
- Cuff on bare skin, just above the bend of your elbow, arm resting on a table.
- Do not talk while it runs. Take 2 readings at least 1 minute apart.

DAY / DATE	WHEN	TOP (SYS)	BOTTOM (DIA)	PULSE	NOTES
Day 1	Morning 1				
	Morning 2				
	Evening 1				
	Evening 2				
Day 2	Morning 1				
	Morning 2				
	Evening 1				
	Evening 2				
Day 3	Morning 1				
	Morning 2				
	Evening 1				
	Evening 2				
Day 4	Morning 1				
	Morning 2				
	Evening 1				
	Evening 2				
Day 5	Morning 1				
	Morning 2				
	Evening 1				
	Evening 2				
Day 6	Morning 1				
	Morning 2				
	Evening 1				
	Evening 2				
Day 7	Morning 1				
	Morning 2				
	Evening 1				
	Evening 2				

WHEN THE WEEK IS DONE

Average every reading above, top numbers and bottom numbers separately. Average top _____ / Average bottom _____

Preparation steps: American Heart Association. Measurement of Blood Pressure in Humans. Hypertension. 2019;73(5):e35-e66.

Routine: American Heart Association and American Medical Association. Self-Measured Blood Pressure Monitoring at Home. Circulation. 2020;142(4):e42-e63.

This sheet is for recording readings. It is not medical advice and it does not diagnose anything. Talk to your doctor about your numbers.

No maths? bptrack.app/blood-pressure-average-calculator works it out in your browser, free.

A blank sheet, for a routine of your own. Write down every reading, not just the ones you like.
